

The River Thames

The River Thames is 215 miles long and as well as flowing through London it also runs through other towns and cities like Oxford, Reading and Windsor.

Did you know?

In 1683 the River Thames was completely frozen for 2 months.

To stop the river flooding, the Thames Barrier was built in 1982. It cost £535 million!

London Bridge was one of the first bridges across the river. This picture of the bridge in the year 1616 shows that people used to live on it!
